24-core double-ended optical cable junction box

Overview

GJS-24-D (PLC) 24 Cores SC fiber optic joint closure is a kind of small junction box that is used to join the fiber bundles and protect them during cabling installation, preventing the cables from abrasion and other damage. It has many advantages: excellent waterproof performance, lightweight,small. The 24 core joint box is a pivotal component in the realm of fiber optic equipment, designed to provide a secure and organized method for housing fiber optic splices. Made from imported PPR reinforced plastics, the box offers high strength, corrosion. Please note that the new type and old type of this product will be sent randomly, and make sure you will not mind before ordering. Suitable for ordinary fiber and ribbon fiber. Fully kitted with all parts for convenient operation. Overlap structure in splicing tray for easy installation.
