# 24-core small optical fiber splicing box

## Overview

This small horizontal fiber splice closure is a compact and durable enclosure designed to protect and manage fiber optic splices in small-scale outdoor deployments, supporting max 24 core splices. With a robust structure and IP65-rated sealing, it ensures reliable fiber joint protection in. Can orderly store fiber connector and remaining fiber, in which the storage disc can be up to four layers large capacity and adjusted according to the number of cores connected by the optical cable. Prevents aging of materials caused by heat, cold, light, oxygen and in nature, with excellent. FTTH outdoor box for 24 adaptors SC simplex, LC duplex or E2000 with key. All products' documentation is published in PDF (Portable Document Format), which requires Adobe Reader (ver. 5 and newer) software for viewing. GJS-24-D (PLC) 24 Cores SC fiber optic joint closure is a kind of small junction box that is used to join the fiber bundles and protect them during cabling installation, preventing the cables from abrasion and other damage. Perfect for FTTH and FTTX networks.
