# AETEP Optical Time Domain Reflectometer

## Overview

The AETeP AT810 Optical Time Domain Reflectometer delivers exceptional performance for fiber optic testing with its intuitive touch interface and portable tablet design. Engineered for accuracy and efficiency in field testing environments. Help others learn more about this product by uploading a video!Delivery time is estimated using our proprietary method which is based on the buyer's proximity to the item location, the shipping service selected, the seller's shipping history, and other factors. Delivery times may vary, especially during peak periods. Usually, options include online chat, customer service hotline, or. Professional OTDR fiber tester with 7-inch touch screen, 12-hour battery life, and comprehensive testing capabilities for fiber optic network deployment and maintenance. We use a variety of relevance factors, including attributes of the eBay pages you visit and items displayed, attributes. Rayleigh scattering. Rayleigh scattering results from the electrical polarizability of the particles.
