Aluminum Alloy Layered Cable Trays

Overview

Aluminum alloy cable tray is made of aluminum alloy through extrusion molding. Because of their lighter weight aluminum cable trays are easier to install than steel cable trayABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. An aluminum alloy cable tray solves these challenges by combining lightweight construction, high strength, excellent corrosion resistance, and thermal management capabilities. With easy installation and strong corrosion resistance, it is ideal for both indoor and outdoor applications.
