APC Fiber Reinforcement Tray

Overview

The tray can accommodate up to 4 Splice patch trays, giving a total capacity of 96 LC/APC fiber connections. The double colored "easy strip" pigtails are stripped, stored and installed in the trays. The ring marking is used for positions 13-24 and provides added. The Fiber Optic Splice Tray SC/APC-12 Core is a professional fiber management solution designed for secure splicing, routing, and protection of optical fibers in modern optical communication networks. It supports up to 12 fiber cores with SC/APC connectors, featuring angled physical contact. ✓ Drawer with guild rail. Price on request 41 pieces in stock Orders placed before 3:00 PM, delivered the next business day. Designed for durability and ease of use, this splice tray is an essential component for telecommunications operators and system integrators managing high-density fiber. This product can be tailored to your network requirements including; overlength amount, splice volume and connector type/ quantity.
