Armored Fiber Optic Patch Cord Engineering Grade

Overview

The Armoured Fiber Optic Patch Cord is suitable to be deployed in a harsh environment as it consists of a spiral steel tape armouring to protect the optical fiber. It is available in both simplex and duplex types. Built with a rugged steel armor layer, these cables are engineered to resist crushing, impact, and rodent. This guide tells you exactly when and how to specify each type. Which outdoor jacket material survives your climate. And how to combine all three — armored. FS offers various armored fibre patch leads that provide stronger protection of the optical fibres to support fibre optic cablings in the most harsh environments. Corning's Armoured Patch Cords exhibit the same outstanding performance as the standard patch cords. This. Single mode, multimode, and armored patch cords in LC, SC, FC, ST — custom lengths with fast turnaround.
