Asia Anritsu Spectrometer

Overview

The benchtop spectrometer MS9740B features a wide dynamic range, high resolution, and fast scanning speed in the wavelength range from 600 nm to 1750 nm. It supports multimode fiber optic input and is ideal for fabrication and evaluation of 850 nm band VCSEL modules. 5 GHz and extendable to 325 GHz. With excellent total level accuracy, dynamic range and performance, Anritsu spectrum/signal analyzers not only can capture wideband signals but FFT technology supports multifunction signal. Solve all your measurement needs with Anritsu's wide line-up of signal and spectrum analyzers, ranging from high-performance and multi-function, high-end models for R&D to handheld types for field use. Overview MS2850A-047/046 MS2840A-040/041 MS2840A-044/046 Performance♦♦♦♦♦ ♦♦♦♦ ♦♦♦♦ Frequency. Anritsu invests over 14% of revenue in R&D to pioneer next-generation test solutions that keep pace with evolving network technologies. Reconfigurable measurement platforms that adapt to new protocol standards via firmware updates, extending instrument lifespan and eliminating costly hardware. 2 Optical Spectrum Analyzers from Anritsu Corporation meet your specification. We are distributor of Sato, Sekonic, Anritsu, Isuzu, Dickson and more.

Article Content

Signal/Spectrum Analyzers | Anritsu Asia Pacific

With excellent total level accuracy, dynamic range and performance, Anritsu spectrum/signal analyzers not only can capture wideband signals but FFT technology supports multifunction signal analyses in

Signal Analyzer / Spectrum Analyzer Selection Guide

Solve all your measurement needs with Anritsu''s wide line-up of signal and spectrum analyzers, ranging from high-performance and multi-function, high-end models for R&D to handheld types for field use.

Anritsu — Precision Test & Measurement

Anritsu provides advanced test and measurement instruments for telecommunications, defense, and industrial applications.

Optical Spectrum Analyzers

We have compiled a list of Optical Spectrum Analyzers from the Anritsu Corporation website/catalog and made their products searchable by specification. Use the filters to narrow down on products based

Rent Reliable Anritsu Test Equipment in Malaysia, Singapore & SEA

Rent or buy reliable Anritsu test equipment at competitive prices. Serving Malaysia, Singapore, and SEA — engineered for accuracy, built for professionals.

SL Process Measurement Pte Ltd Official Website

Local stockist and distributor for process instrument in Temperature, Humidity, Pressure and others. We are distributor of Sato, Sekonic, Anritsu, Isuzu, Dickson and more.

Anritsu – Spring Technologies

Anritsu Spectrum Master MS2711E Anritsu Spectrum Master Handheld Spectrum Analyzer MS2712E Anritsu Spectrum Master Handheld Spectrum Analyzer MS2713E Anritsu Site Master™ Cable &

MS9740B Anritsu Optical Spectrum Analyzer (OSA)

The benchtop spectrometer MS9740B features a wide dynamic range, high resolution, and fast scanning speed in the wavelength range from 600 nm to

Signal/Spectrum Analyzers | Testforce

© 2026 EXF OPTICAL NETWORKS - All rights reserved

Anritsu offers a wide range of industry-leading signal/spectrum analyzers that provide coverage from 50 kHz to 170 GHz, with optional coverage to 325 GHz with an external mixing solution - delivering

Signal Analyzers MS2691A | Anritsu Asia Pacific

Anritsu''s high-performance, multifunctional bench top signal analyzer MS2691A realizes a vector signal analyzer with broadband FFT analysis for LTE and 5G, and optionally supports modulation analysis,

Anritsu Home | Anritsu Asia Pacific

Anritsu supplies test and measurement equipment, supporting next generation networking, as well as quality-assurance inspection equipment for food and pharma.

Signal/Spectrum Analyzers | Anritsu America

Explore Anritsu''s lineup of signal and spectrum analyzers, along with valuable resources to support your measurement needs.

Optical Spectrum Analyzer | Anritsu Europe

Optical Spectrum Analyzer Accuracy, functionality, and performance are imperative for evaluating active optical devices, including optical transceivers, VCSL, and DFB light sources. Anritsu offers high

Anritsu Home | Anritsu America

Anritsu supplies test and measurement equipment, supporting next generation networking, as well as quality-assurance inspection equipment for food and pharma.

Spectrum Analysis | Anritsu America

Spectrum Analysis Introduction to Spectrum Analysis eLearning Course These on-line courses provide training on the basics of spectrum analysis. They are beginner level courses and there are no

Spectrum Analyzer/Signal Analyzer MS2840A | Anritsu Asia Pacific

Spectrum and Signal Analyzer combining superior close-in phase noise performance, a perfect solution for research, development, and manufacturing of wireless equipment and Tx devices

Anritsu Spectrum Analyzers • JM Test Systems

Optimize your signal analysis with Anritsu spectrum analyzers, available for rent or purchase through JM Test Systems. Anritsu is a global leader in test and measurement equipment, known for delivering
