Product Range and Materials

Ladder Trays: Ideal for heavy-duty cable support in industrial and commercial projects. Perforated Trays: Allow ventilation and heat dissipation for electrical cables. Trunking Systems: Provide organized routing for electrical wiring in buildings.

Wire Mesh Systems: Flexible and lightweight solutions for complex installations. Materials commonly used include galvanized steel, stainless steel, aluminum, and fiberglass-reinforced polycarbonate, offering resistance to humidity, heat, and corrosion.

Services and Support

Manufacturers in Benin provide: Custom sizing and design to fit project specifications. Technical support for installation and product selection. Efficient logistics to ensure timely delivery across Benin.

Cost-effective pricing for bulk orders, suitable for both private contractors and government projects.

Additional Considerations

For specialized or large-scale projects, European and international manufacturers such as Eurotray and EAE Electric offer advanced cable management systems and busbar solutions, which may be relevant for high-tech or industrial installations in Benin. By choosing local manufacturers like Ned-Tech or Brilltech Engineers, businesses benefit from regional expertise, faster delivery, and products tailored to Benin's climate conditions, while still having access to international standards and quality.
