Building communication towers in Papua New Guinea

Overview

The Instrument is developed under section 218 of the Act and outlines the regulatory guidelines which licensed operators, agents, or individual citizens must comply with when siting and/or deploying communication towers and/or any form of antenna supporting structures in Papua. The Instrument is developed under section 218 of the Act and outlines the regulatory guidelines which licensed operators, agents, or individual citizens must comply with when siting and/or deploying communication towers and/or any form of antenna supporting structures in Papua. PNG DataCo and major mobile operators Vodafone and Digicel have all invested heavily in infrastructure of late. Meanwhile, the question remains whether Starlink will gain entry into the PNG market in 2025. Credit: Vodafone PNG More than 12,000 km of. There are 31 Communications towers in Papua New Guinea as of December, 2025. Jiwaka Province makes up approximately 19. 4% of all. The National Information and Communications Technology Authority (NICTA) and Digicel PNG have signed a contract agreement for the construction of a 40-metre self-supporting spectrum monitoring tower in Port Moresby.
