# Cable tray supports hangers brackets

## Overview

Examples of support elements include wall and support brackets, suspended supports and centre suspensions. They offer an alternative to open wiring or electrical conduit systems and are necessary for cable management in commercial and industrial construction, as well as. TechLine Mfg. offers various supports for its cable tray products including hangers, brackets and clamps. Supports should be located so that connectors. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resil- for each of these installation challeng-ience and safety. es in the industrial environment. Our cable support. 75mm Premier Stand Off Brackets (HDG) The 75mm Premier stand off bracket is designed for securely spacing cable trays up to 75mm wide from wall or surface mounts. Built from 2mm thick ribbed steel and finished with a hot dipped galvanised (HDG) coating, this bracket offers excellent strength. The market for cable tray supports is driven by the essential need for robust and compliant electrical infrastructure in various sectors. Key standards such as IEC 61537, NEMA VE 2, and NEC govern the design, installation, and safety of these systems, ensuring reliability and performance 1.
