China Unicom Optical Cable Line Project

Overview

China Unicom Group, one of China's major telecommunications operators, has revealed plans for the construction of a nearly 3,000-kilometer-long submarine optical fiber cable, which will span from Hong Kong to Sihanoukville in southern Cambodia. This project represents Cambodia's inaugural. In 2014, China Unicom took the lead in launching the exploration of new types of optical fibre in. Recently, a centralized procurement project of a provincial China Unicom company was announced to be terminated. To ne Cable (SAIL)Hengtong, in collaboration with China Unicom, has successfully deployed and begun operating China Unicom's first commercial hollow-core fiber optic cable line. This hollow-core fiber cable is now serving a dedicated line for a bank branch in Jiangsu, where it has been integrated into the live.
