Columbia Explosion-proof Lighting and Power Distribution Box

Overview

Introducing our Explosion-proof Lighting (Power/Repair) Distribution Box, designed for enhanced safety and efficiency in hazardous environments. This series of products have good explosion-proof function, suitable for IIA, IIB, IIC explosive gas environment and various flammable and explosive sites, mainly used in railway, power, metallurgy, petroleum, petrochemical, chemical, iron and steel, aviation, ships and various factory areas. Supermec ATEX Junction Box & Enclosures are designed to satisfy most of our clients' requirements for CONTROL explosion-proof and flameproof enclosures. The explosion-proof power distribution box is a low-voltage power distribution device that assembles switchgear, measuring instruments, protective appliances and auxiliary equipment in a closed or semi-closed metal cabinet or on the screen according to the electrical wiring requirements. It is also used in flammable dust places such as military industry, port, grain storage and metal processing; 2.
