Columbia pigtail cable models

Overview

Set of 2 lead wires with pigtail connection for use with COLUMBIA 6000™ treatment devices and Columbia 600, 600M, and 600P pigtail style electrodes. (will NOT work with VitalStim device) These lead wires also work with many other devices with a pin-shaped connection. Available in multiple styles—including Bonded-Pair and Non-bonded—to align with your installation preferences, Belden's Copper Pigtails come with a snagless, overmolded boot on the plug end for high-performing strain and pull relief. They are available in 1- and 2-fibre combinations. Corning's pre-terminated assemblies use only high-quality Corning optical fibres to ensure total performance quality. If your application requires a trimmed cable end, please specify the desired. Fiber optic pigtails play a central role in fiber optic cabling and, in combination with professional splicing technology, ensure maximum efficiency and low attenuation losses. 0 m in the fiber types OS2 (singlemode) and OM1 to OM5 (multimode) with all common connector types. We carry FO pigtails with a length of 2.
