Constant Voltage Dual Color Temperature Integrated Power Supply

Overview

It is a highly integrated solution for Switching Mode Power Supply (SMPS) applications requiring a dual control loop to perform Constant Voltage (CV) and Constant Current (CC) regulation. The NCS1002A integrates a 2. 5 V voltage reference and two precision op amps. Nonetheless, most of these designs do not provide a mechanism for dimming, and those that do typically only provide linear current adjustment dimming. To provide stable color control, the. This item can be returned in its original condition for a full refund or replacement within 30 days of receipt. See more product details Help others learn more about this product by uploading a video! Did you. This paper describes four main functions of an LED and how to optimize your design with each. This video provides an overview of the multiple topologies to consider when selecting an LED driver, including the advantages and disadvantages that come with the boost, buck, floating buck boost, SEPIC. Advanced Protection:Built with over-load, short circuit, and recover automatically features, this driver offers robust and secure lighting solutions. Wide-Range Compatibility:Suitable for various applications, this zigbee led driver is ideal for offices, homes, hotels, and more, with a 50,000hr. The LT3796/LT3796-1 are DC/DC controllers designed to regulate a constant-current or constant-voltage and are ideal for driving LEDs. The fixed frequency and current mode architecture result in stable operation over a wide range of supply and output voltages.

Article Content

Dual Switch Mode LED Driver with Dimming Engine

To demonstrate the operation of the SMPS driver and the dimming engine, a simple battery-powered Dual-Channel LED driver is implemented in this application note using both SMPS and dimming

Color Modulation Power Supply Dual Color Temperature Drive

Product Summary: Color Modulation Power Supply Dual Color Temperature Drive Constant Voltage DALI Power Supply 48v 36v 24v 11v Dali dimming Power Supply (10W 12V) From

LED drivers | TI

This video provides an overview of the multiple topologies to consider when selecting an LED driver, including the advantages and disadvantages that come with the boost, buck, floating buck boost,

LT3796
LT3796-1 Datasheet and Product Info

The LT3796/LT3796-1 are DC/DC controllers designed to regulate a constant-current or constant-voltage and are ideal for driving LEDs. The fixed frequency

LED Color Temperature Control

This system alternates current between LED sources using dedicated switching elements, ensuring stable luminance and precise color temperature

NCS1002A

It is a highly integrated solution for Switching Mode Power Supply (SMPS) applications requiring a dual control loop to perform Constant Voltage (CV) and Constant Current (CC) regulation.

UTP3300-II

UTP3300-II Series are three-channel linear DC power supplies of adjustable dual channel and fixed single-channel output, featuring tracking, constant

LED Lighting | Dual-Output Power Supply (CC+PWM)

Dual output with 12 V PWM and constant current Digital dimming method (256 steps using front switch) Support for 8-bit parallel and 0 to 5 V analog input for external

PWM Series Mean Well Constant Voltage Dimming

© 2026 EXF OPTICAL NETWORKS - All rights reserved

Free Shipping & Low Prices on the PWM series Mean Well constant voltage mode dimming power supply; perfect for LED Strip Applications. In Stock. Click or Call

Amplifier

Class-A amplifiers generally use only one device, unless the power supply is set to provide both positive and negative voltages, in which case a dual device

24 VDC Constant Voltage Power Supply

The 5-in-1 Dimmable Constant Voltage Power Supply helps set the perfect mood. Control the dimming using TRIAC, 0-10V, 1-10V, PWM, or potentiometer options.

LT3796/LT3796-1

DescripTion The LT®3796/LT3796-1 are DC/DC controllers designed to regulate a constant-current or constant-voltage and are ideal for driving LEDs. The fixed frequency and current mode architecture

LED Power Supply Constant Voltage

NALNR54-1400D-NFC-CAS is programmable linear constant current dimmable LED drivers.This LED drivers have 2 channel version available for tunable white,and

Inductor

As with any antiderivative, a constant of integration is added to represent the initial current I (t0). The dual of the inductor is the capacitor, which stores energy in an

Constant-Power Source | Analog Devices

This design idea appeared in the December 15, 2006 issue of Electronic Design magazine. Supplying a fixed and accurate power level to a

252 Field Tunable (watt and color temp.) Backlit LED Panel With ...

SPECIFICATION SHEET Page 2 2x2 Field Tunable (watt and Color Temp.) Backlit LED Panel With Integrated Constant Power Battery Backup

DPS5005 50V 5A Buck Adjustable DC Constant

This is a DPS5005 50V 5A Buck Adjustable DC Constant Voltage Power Supply Module Integrated Voltmeter Ammeter With Color Display. Its adjustable output

Constant-Current & Constant-Voltage Controller with

Features of the LT3796: • 3,000:1 True Color PWM™ Dimming • Wide Input Voltage Range: 6V to 100V • Current Monitoring Up to 100V • High
