Custom Price of Galvanized Cable Trays

Overview

Find top-quality galvanised cable tray for sale with customizable options, corrosion resistance, and fast shipping. Compare verified suppliers, MOQs, and pricing.

Key Takeaways

Custom-made galvanized cable trays typically start around US$4 per meter, with prices varying based on material, size, and load capacity.

Price Range and Factors

The cost of custom galvanized cable trays depends on several factors: Material: Options include pre-galvanized steel, hot-dip galvanized steel, stainless steel (304/316), and aluminum. Hot-dip galvanized trays generally cost more due to higher corrosion resistance. Dimensions: Widths range from 50mm to 900mm, heights from 12mm to 200mm, and standard lengths of 2m, 2.

44m, or 3m. Larger or non-standard sizes increase the price. Steel Thickness: Typically 0.

8–3. 0 mm; thicker trays support higher loads but are more expensive. Load Capacity: Maximum working loads vary from 100–400 kg depending on size and thickness.

Customization: Perforated, ventilated, or solid-bottom designs, along with accessories like covers, dividers, and fittings, can affect pricing.

Supplier Options

Factory Direct / OEM: Purchasing directly from manufacturers in China or India can reduce costs and allow full customization. Minimum Order Quantity (MOQ): Some suppliers require a minimum of 1 ton, while others provide standard sizes for smaller orders. Sample Pricing: Some suppliers offer samples at around US$4 per meter, which is useful for testing before bulk orders.

Additional Considerations

Certifications: Look for ISO, CE, and SGS certifications to ensure quality. Shipping and Delivery: Costs vary by location and order size; negotiation with suppliers is common for bulk shipments. Payment Methods: Flexible options include T/T, L/C, PayPal, and bank transfers.

In summary, custom galvanized cable trays can start at approximately US$4 per meter, but the final price depends on material, size, load capacity, and customization. Contacting suppliers directly for a quote is recommended to get accurate pricing tailored to your specifications.
