Data Center Rack Price List

Overview

A: In the US, a standard full rack (42U, 3–5 kW) runs $900–$2,500/month all-in at a Tier 3 facility, depending on market and term length. High-density racks (10–30+ kW) in top-tier markets can exceed $3,000–$6,000+/month before bandwidth and cross-connects. Industry reporting on primary North American colocation markets indicates that 250-500 kW deployments were approaching approximately $196 per kW per month in H2 2025, with larger requirements seeing sharper increases. It's a function of market, power density, bandwidth model, contract term, and whether the salesperson on the other end of the phone thinks you're a sophisticated buyer or a. Exos® CORVAULT™ 4U106 4U rackmount — featuring up to 2. 0-metre-deep racks Maximise value and minimise TCO for scale-out workloads using a scalable, dense compute infrastructure focused on performance. Colocation pricing covers the recurring cost of housing your servers and network equipment in a third-party data center, billed mainly across space, power, bandwidth, and support. This guide breaks down each cost component, the factors that move pricing, and the hidden fees that inflate the total. When it comes to the design of the data center the rack is an incredibly important component since it is the structure that houses and supports many of the servers, storage, and network equipment. Choosing the right server rack involves understanding dimensions, weight capacity, cooling needs, and the type of rack, whether open or closed frame.

Frequently Asked Questions

What is data center cost per rack unit?

Average data center cost per rack unit is XXX lakh

What is data center cost per kwh?

Average data center cost per kwh is Inr. xxxxxx lakh.

What is data center cost per mw?

Average data center cost per kwh is Inr. xxxxxxxxx crore

How to calculate Data center total space required?

You may calculate data center space per rack with all utility space including ups, dg, transformer i.e xx sqft.

What is data center cost per server?

1u server average cost is 3-6 lakh.

How much power do the servers consume?

Here's something about the servers:Servers usually come with a single or two-socket. A single-socket server consumes 118W and a two-socket server 3...
