Distribution Box Branch Price

Overview

The distribution box cost typically ranges from affordable basic models to premium solutions, depending on capacity, features, and specifications.

Key Takeaways

The price of distribution box branches varies widely, typically ranging from $50 for small residential units to several hundred dollars for industrial or weatherproof models, depending on specifications and features.

Price Ranges

Residential Branch Boxes: Small single-phase units with basic circuit breakers generally cost $50–$150, depending on amperage and number of circuits ( ).

Commercial/

Industrial Branch Boxes: Larger three-phase or high-capacity units with advanced safety features, surge protection, and multiple circuits can range from $200–$600 or more ( ). Specialized or Weatherproof Units: Outdoor-rated or tamper-resistant boxes, often used for underground or industrial applications, may cost $300–$800, reflecting enhanced durability and environmental protection ( ).

Factors Affecting Price

Voltage and Amperage Capacity: Higher voltage or current ratings increase material and manufacturing costs ( ). Number of Circuits: More circuits require additional breakers and internal components, raising the price ( ). Material and Construction: Corrosion-resistant metals, high-grade plastics, and weatherproof enclosures add to cost ( ).

Safety and Monitoring Features: Integrated surge protection, ground fault interrupters, arc fault detection, and smart monitoring systems increase upfront investment but improve long-term reliability ( ). Customization: Specific mounting configurations, labeling, or integration with building management systems can significantly affect pricing ( ).

Installation and Maintenance Considerations

Installation Costs: Professional installation is recommended, especially for high-voltage or outdoor units, which may add $50–$200 depending on complexity ( ). Maintenance: Regular inspection and replacement of worn components ensure safety and longevity, potentially reducing total cost of ownership over time ( ).

Purchasing Options

Online Retailers: Pre-wired, ready-to-use branch boxes are available on platforms like Amazon, with prices starting around $50–$100 for small units ( ). Specialized Suppliers: Companies like Weisho Electric provide customizable outdoor and industrial distribution boxes with lead times of 10–15 business days for standard units and 3–5 weeks for custom orders ( ). In summary, distribution box branch prices depend on capacity, features, and environmental ratings, with residential units being the most affordable and industrial or weatherproof units commanding higher prices.

Factoring in installation and long-term maintenance is essential for accurate budgeting.
