Drilling holes in Belgian stainless steel cable trays

Overview

Using the right tools such as cobalt or carbide-tipped drill bits is crucial when drilling into stainless steel to avoid damaging the material. What is this?

Applying coolant or lubricant while drilling helps reduce heat buildup and prevents the drill bits from becoming. Trayco is specialised in producing and optimising 100% Belgian cable trays, mesh trays, cable ladders, mounting and floor systems. We also play an important role as advisor and guide during the installation process. Our company (founded in 2012) has quickly become an established player in the cable.
