# Exfo Optical Cable Survey Instrument

## Overview

The Exfo is a highly versatile, all-in-one fibre optic testing solution that offers a range of testing capabilities for both single-mode and multi-mode fibre. We're the communications industry's test, monitoring and analytics experts. We enable tomorrow's technologies. These include standalone handheld and benchtop instruments, optical sampling oscilloscopes, tuneable laser sources, and modular intelligent test systems with power, PDL and return-loss meters, EDFA boosters, variable attenuators. The MaxTester 700D Series builds on the proven tablet-inspired, lightweight and rugged OTDR MaxTester platform. The familiar 7-inch, outdoor-enhanced touchscreen continues to deliver an unprecedented user experience with its intuitive Windows-like GUI ensures a fast learning curve. The OTDR. Fully featured, entry-level, dedicated OTDR with tablet-inspired design, suitable for metro and optimized to test through optical splitters, for. EXFO Optical Exporer - The First Optical Fibre Multimeter (OFM). An OFM is an essential handheld tool for optical. Fronthaul (with eCPRI, CPRI, and OBSAI protocols) test equipment is needed to test remote radio units (RRUs), baseband units (BBU), and the remote radio head (RRH).

## Article Content

EXFO (Test Systems)

EXFO offer a broad range of test equipment for fibre-optic systems. These include standalone handheld and benchtop instruments, optical sampling oscilloscopes,

EXFO Test Equipment

Pass/Fail indicators for easy assessment of power values. The most easy-to-use instrument of its kind: simply connect the fiber and read the results. Includes: Quick Reference Guide, USB Cable,

EXFO — Comms Centre

Mini yet mighty, the AXS-120 brings EXFO''s renowned OTDR accuracy, reliability and durability to the field in a compact form factor.

Rent or Buy EXFO test equipment I Electro Rent

Network operators rely on EXFO test equipment for end-to-end link validation. With EXFO OTDR testers, users can accurately verify the integrity of fiber optic

EXFO Fibre Optic Testing

EXFO Fibre Optic Testing The Exfo is a highly versatile, all-in-one fibre optic testing solution that offers a range of testing capabilities for both single-mode and multi

Fiber inspection | Fiber equipment

Compact and intuitive, the FIP-200 Connector Checker™ provides visually clear pass/fail results adapted to broadband in the field. Rugged, tablet-inspired design featuring the latest innovations in

EXFO FIP-500 Fiber Inspection Scope

Fastest inspection in the industry: connect to MPO 12 fibre, analyse and save test results in less than 10 seconds, and the capability to select and inspect active

Exfo — Networks Centre

EXFO is widely credited. Many world-leading fibre network operators have proudly supported and listed EXFO products, including FTTx, LAN, Metro, PON, and

Light-source testing solutions | EXFO

Light sources Light sources simulate the optical voice, video and data signals of real-life service applications, making them an essential component of a thorough testing process. Discover EXFO''s

*© 2026 EXF OPTICAL NETWORKS - All rights reserved*

Optical Explorer | Spec sheet | EXFO

EXFO''s extensive experience in field testing instruments has gone into creating Optical Explorer. Its ergonomic, robust design is a perfect fit for today''s field technician.

Test Equipment & Inspection Tools | AusOptic Australia

AusOptic test equipment and inspection tools for precise diagnostics, reliable measurements and robust performance for professional fibre installers., Based on field knowledge and 20 years of OTDR

Solutions

Solutions At EXFO, we have the solutions you seek. Whether you''re a telecom provider or NEM, our solutions are geared to help increase efficiency, reduce

Live fiber detection equipment | EXFO

Live fiber detection EXFO''s handheld live fiber detectors don''t disrupt traffic, nor damage or over-stress fibers, enabling efficient, accurate and reliable data acquisition. Pinpoint live and dark fibers and

Power meters for fiber networks | EXFO

Power meters Power meters are a toolbox essential for all technicians installing or maintaining any type of fiber networks. From general-purpose meters to meters optimized for certain types of

EXFO Optical Explorer Datasheet

EXFO''s extensive experience in field testing instruments is embedded in Optical Explorer. It leverages this built-in expertise to diagnose the quality of your fiber reliably and quickly.

EXFO Optical Test Equipment for Labs, Data centres, and Network

Based on field knowledge and 20 years of OTDR expertise, EXFO''s optical test equipment range including the latest OTDRs are designed to meet lab, data centre, and network operators'' requirements.

EXFO MAX-860-1-100optical-Cable Test Dual Port 1Gbit/s

Fiber Instrument Sales - Fiber Optic Experts Home EXFO MAX-860-1-100optical-Cable Test Dual Port 1Gbit/s

Optical Explorer | Spec sheet | EXFO
