Fiber Optic 24-core Tower Junction Box

Overview

The FDB-24R is an IP65-rated fiber optic distribution box for FTTx networks, supporting 24-core splicing, 24 SC adapters, and 1x16 or 3x1:8 micro PLC splitters for secure, high-capacity connectivity. The ADSS/OPGW metal junction box is also called a splicing box that is designed to house the fiber core splices to the outdoor intermediate optical cable leading to the patch panel in the control room. Meanwhile, it provides solid protection and management for the FTTx. Telecommunication Equipment Waterproof Splice Closure is designed for configuration flexibility, these closures offer expanded slack storage, various tray heights and mass platform storage. The Opgw Joint Box include hermetically sealed and free-breathing solutions.
