Fiber optic terminal box with 4 ports and 10-pin connector

Overview

This FTTH termination box comes with 4 inlets port and 2 cable access points for flexible installation and efficient fiber cable management, which usually used to organize and protect fiber splicing and termination for home and office network. The optical fiber terminal box is the end connector of an optical cable. Insulate the metal components of the optical cable from the cable end shell, provide space for the placement of the optical cable. The HTB8010 4 Ports FTTH Fiber Termination Box is specially designed for fiber access termination in residential or light commercial buildings. It offers mechanical protection for fiber and pigtail management, integrates splice and termination in a compact form, and features user-friendly operation. The L-com LCFTB-104-LCA FTTH Terminal Box presents a cutting-edge solution for indoor fiber optic termination and distribution of optical cables. Crafted with sturdy metal, this wall-mountable box guarantees durability and reliability for your network connections. It adopts a compact plug-in design, and combines integration, multi-function, modern design concept.
