# Fireproof seals are used at the ends of cable trays

## Overview

Penetration seals, also known as service penetration seals, are passive fire protection systems designed to maintain the fire resistance of building elements—such as walls or floors—where services like cables, cable trays, pipes, or ventilation ducts pass through them. Effective protection of cable systems around the world: our tried-and-tested FLAMMOTECT-A and DG-CR 0. 7 products are successfully used to protect cables in high-rise buildings, industrial buildings, and offshore facilities as well as in sensitive areas, such as hospitals, airports, production. AF BAGS are intumescent and ablative fireproof pillows certified under EN 1366-3 for sealing up to EI 240 of cable tray penetrations. For interior application in dry rooms The systems consist of mineral fiber boards, intumescent coating and joint sealant. They can be applied as single-panel. Coatings for cable fire protection Cable penetrations seals / fire stopping for cables Pipe penetration seals / fire stopping for pipes Mixed penetrations seals / multi-transit fire stops For requests regarding technical documents or test and approval certificates, please use downloads or contact:. FIRSTO firestops are designed to seal multi-cable and cable tray penetrations of fire-rated walls and floors. Working in inaccessible openings is often cumbersome.

## Article Content

Fire protection for cables & cable trays | Flamro

The mostly combustible cable sheaths and insulation allow a fire to spread along the cable at rapid speed. Our tested solutions for cable fire protection can delay the

Fireproof pillow for cable tray penetrations

AF BAGS are intumescent and ablative fireproof pillows certified under EN 1366-3 for EI 120/180 sealing of cable tray penetrations.

Penetration Seals

Penetration seals, also known as service penetration seals, are passive fire protection systems designed to maintain the fire resistance of building elements—such as walls or floors—where services like

Cable penetrations seals | Wolman

KBS ® offers various solutions to effectively protect cable penetrations from the passage of flames and smoke. In most cases, the task is to seal off complex cable systems and cables on support

KBS – Cable Fire Protection and Penetration Sealing | Wolman

Our proven KBS ® cable penetration seals were used in various power plants in Finland. KBS ® Mortar is used here especially for fire stopping in concrete floors.

Firsto System | CSD Sealing Systems

FIRSTO firestops are designed to seal multi-cable and cable tray penetrations of fire-rated walls and floors. FIRSTO fire stops are developed as a modular system which is simple to assemble around

Passive fire protection system with fire-proof cable and pipe seals ...

Roxtec cable and pipe entry seals provide certified protection against multiple hazards – including smoke and fire. The fire-resistant penetration sealing system secures an efficient fire barrier.

Fire sealing cable penetrations

Fire sealing of cable penetrations is required by building regulations. In case of a fire, these cable services will melt and leave openings in the walls or floors,

Cable transit frames and penetration sealing systems

*© 2026 EXF OPTICAL NETWORKS - All rights reserved*

Seal cable penetrations with our modular firestop solutions, designed to create water-, smoke- and gas-tight barriers in energy and industry projects both onshore and offshore.

Cable Penetration Seals | ZAPP-ZIMMERMANN GmbH

ZZ® 365 Fire Protection Sealant to be filled between cables, in voids between cables and ZZ® 260 Fire Protection Block and between periphery of opening and
