Ghana s first and second core chips

Overview

In 1973, national identity cards were issued to citizens in the border regions of Ghana including Volta, Northern, Upper East and Upper West, Brong Ahafo, and parts of the Western Region. The project was discontinued three years later due to problems with logistics and lack of financial support. This was the first time the idea of national identification systems arose. Again, in 1987, the Government o. OverviewThe Ghana Card is the national that is issued by the Ghanaian authorities to Ghanaian citizens – both resident and non-resident, legal and permanent residents of foreign nationals. It is proof of identity, citi. The National Identification Authority (NIA) was set up in 2003 under the Office of the President with the mandate to issue national ID cards and manage the National Identification System (NIS). This resulted in the passin. The Ghana Card, which uniquely identifies the individual based on biometric features, can be used by the individual for the verification and authentication of identity in the following situations: 1. Health.

Intel rolls out new chips that put it ahead of AMD

Intel Corp. rolled out new computer chips Thursday that highlight the company''s lead over Advanced Micro Devices Inc. in its ability to shrink the circuitry inside its processors. Intel''s new Core

World''s First 1,000-Processor Chip

The chip is the most energy-efficient “many-core” processor ever reported, Baas said. For example, the 1,000 processors can execute 115 billion

History of Ghana

Ghana succumbed to attacks by its neighbors in the 11th century, but its name and reputation endured. Although none of the states of the western Sudan controlled

What is Dhruv64? India''s first 1.0 GHz, 64-bit dual-core

While India has undertaken smaller-scale chip projects in the past, Dhruv64''s 64-bit architecture and 1.0 GHz dual-core design mark a significant

Qualcomm Ships First Dual-CPU Snapdragon Chipset

Qualcomm''s Snapdragon family of chipset solutions includes: • First-generation products: QSD8x50™ with 1GHz enhanced core • Second-generation products: MSM8x55™ and

Fifth-gen core chips now stocked with IRIS graphics

Thanks to the Iris chip, Intel says that model will double its predecessor''s graphics performance and boost media chores by 35 percent.

Intel Core

Intel Core Solo (product code 80538) uses the same two-core die as the Core Duo, but features only one active core. Depending on demand, Intel may also

Hot Chips 2024: Qualcomm''s Oryon Core

That strategy contrasts with Intel and AMD, which use different core counts to target a wide range of power targets. We''d like to thank Qualcomm for

MTN Ghana memorable milestone in

MTN Ghana has come a long way in good and in bad with a lot of tales to tell. Quite a few of their memories is worth capturing as was confessed by the Mobile
