# Guyana Trapezoidal Bridge

## Overview

Unveiled before thousands, the US$262 million engineering feat, Guyana's longest and most advanced river crossing, now connects both sides of the Demerara River with 24/7 traffic, marking a turning point in national infrastructure. President Dr Mohamed Irfaan Ali hailed the Bharrat Jagdeo River Bridge as a new symbol of Guyana's transformation, strength, and his own vindication after years of political criticism. Constructed in the late 1970s, this iconic structure has been a crucial artery connecting East and West Demerara for over four. West of Georgetown, the capital of Guyana, the Demerara River flows vigorously into the Atlantic Ocean. 15 miles) across the Demerara River. Opened on July 2, 1978, it was built to create a permanent road link between the East Bank and West Bank.
