H3C network security equipment

Overview

· H3C provides more than 500 professional security products in nearly 40 categories, covering a variety of service application scenarios such as boundary security, cloud security, data security, and terminal security. H3C has been engaged in the security field for more than 10 years, with more than 1,000 patented technologies in the field of information. H3C Application-Driven WAN (AD-WAN) Solution utilizes SDN architecture to reconstruct the conventional rigid WAN to its next generation with intelligence. With a unified network platform, users can intelligently steer the networking resources, and visualize the applications for "one-click". The H3C SecPath Series-including SecPath F1080, SecPath F1070, SecPath F3115-I, SecPath F3135-I, and SecPath F3000-I100-is a high-performance, carrier-grade security gateway family designed to secure large enterprise networks, campus cores, data centers, ISP-level infrastructures, and high-traffic.
