Hyper Photonix is a US supplier of high performance optical transceivers with Research & Development, Engineering and Manufacturing Facilities in Asia. By seamlessly integrating advanced silicon photonics, ultra high speed circuit and packaging designs, Hyper Photonix offers a comprehensive range. GIGAC Communication Technology is an engineering-driven manufacturer specializing in industrial-grade optical modules for power systems, automation, rail transit, renewable energy, and mission-critical control equipment. We design and manufacture a full portfolio from POF transceivers to 25G. Samtec is the industry-leading provider of mid-board optical transceiver solutions.

High-Performance Optical Module Supplier-Wholesale and Custom

Wholesale and Custom High-Speed Network Optical Modules We provide high-speed, stable, and highly compatible optical modules to meet the needs of data centers, enterprise networks, and

High Performance Active Optics & Passive Optics Solutions

This growing and comprehensive family of products provides reliable signal integrity over an extended distance in chip-to-chip, board-to-board, on-board and system-to-system connectivity.

Optical Components and Modules

Monitoring Integrated PD with tap or WDM function provides high performance and reliability in a compact package. The monitoring product family includes

Optical Modules

Aoyuan Yi Chuang, part of the 30-year-old Aoyuan Group, is dedicated to the localization of optical modules, offering high-quality and high-performance products and customized solutions across

Optical Modules in General-Purpose Computing Scenarios

Huawei offers a comprehensive portfolio of pluggable StarryLink optical modules for data center networks, with various models providing flexible plug-and-play solutions tailored to diverse interface

Optics and High Speed IO Solution | Transceivers

With advanced manufacturing capabilities and global design expertise, Amphenol delivers high-performance optical modules for next

Optical Transceivers: High-Performance Modules for

Power your network with Innoptical''s high-performance optical transceivers. From low data rates to 800GB, we have compatible, energy-efficient modules tested

Optical Module Chip Market 2025

Optical module chips are semiconductor devices that enable high-speed data transmission in fiber optic networks. These components form the core of optical

Top 10 Optical Transceiver Manufacturers Driving High

Discover the top 10 optical transceiver manufacturers advancing 400G and 800G modules powering hyperscale data centers and next-generation
