How to get into the fiber optic cable industry

Overview

Entry points into the fiber optic workforce typically include high-school vocational programs, associate-degree curricula, and specialized certificate courses. This page is for those considering a career in fiber optics - especially students at the High School Level - and want to know more about what fiber optic workers do on the job and how to get into the field. Have you seen the FOA YouTube Video "Careers In Fiber Optics?

" If you are already involved. The FOA is an international non-profit educational association that is chartered to promote professionalism in fiber optics through education, certification and standards. FOA is also an internationally recognized certifying body for fiber optics. SCTE partners with you to deliver high-quality training designed for the cable telecommunications industry.

Article Content

Home -The Fiber Optic Association

The Fiber Optic Association Inc. (FOA) is the international professional association of fiber optics. FOA is chartered to promote fiber optics through education, certification and standards.
