Huawei Zambia Energy Big Data Center

Overview

The data centre, under the Smart Zambia phase 1 project, is being implemented via the Zambia Information and Communication Technology Authority (ZICTA) and funded by the Chinese government through a concessional loan. Scott is a senior staff member at the Zambian Ministry of Finance (MoF). As part of his job, he analyzes a wide range of economic data, including statistics on power generation, copper production and exports, the use of mobile communication services, and numbers of tourists. The announcement took place during the government industry forum titled Secured, Sovereign & Synergized Network-Cloud Strategy Accelerating National. DatacenterDynamics is the world's largest data center publication. We publish news, magazine features, and podcasts about the hyperscale & cloud, colocation & wholesale, artificial intelligence (AI), semiconductors, Edge computing, investment and REITs, data center companies, and more. Chinese technology giant, Huawei has revealed plans to add more cloud data centres in Africa, with East and West Africa identified as the next target regions.
