Information Network Cabling Cable Management Frame

Overview

A cable management rack is designed to route, protect, and organize copper and fiber cables inside network cabinets. Beyond keeping cables tidy, a well-structured cable manager reduces cable stress, improves heat dissipation, and ensures bend-radius compliance for data. Effective network cable management transforms chaotic server rooms into streamlined, professional installations that enhance performance, reduce downtime, and simplify maintenance. As businesses increasingly rely on robust network infrastructure, proper cable organization becomes critical for. CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management. FlexFusion™ Cabinets XG offer a unique universal platform. The Cable Management frame fits several types of splice closures on the market. 6a or Fiber Optic Cables that replaces conventional cable managers. Our innovative system enables 10x faster installation & maintenance and thanks to our Patchcatch it also allows up to 50% more space.
