Installation of Molded Shell Distribution Boxes

Overview

Layout First: Use laser levels and digital templates to mark mounting points instead of measuring tapes and pencils. Smart Sequencing: Install brackets → backbone → main busbars → modules. The box is usually made of steel or plastic. Inside the box, you'll find things like circuit breakers, busbars, terminal blocks, and wires. These. Fold / Tear the BOX SHELL to fit the desired wall type. We focus on workflow efficiency, assembly er This. Unlike those old-fashioned junction boxes that required an electrician's prayer and three different tools to open, today's modular systems are like LEGO blocks for professionals – snap together what you need, add more when you need it, no PhD required. The range of applications extends from pure energy distribution in buildings to building automation and through to industrial plants. SMART DISTRIBUTION BOXES FOR FLEXIBLE BUILDINGS.
