Installation price of sliding electrical distribution box in building

Overview

Typical residential installations or replacements range from $600 – $2,000 (most between $1,000 – $1,400), with 200A-rated and outdoor-weatherproof units positioned at the higher end. Understanding distribution box cost involves examining the comprehensive investment required for electrical distribution systems that serve as crucial infrastructure components in residential, commercial, and industrial settings. The distribution box cost encompasses not only the initial purchase. Buyers usually pay for a standard 4-inch square or single-gang metal box, with basic wiring, often totaling around $60-$180 for the box plus $85-$125 per hour for labor. Costs vary based on amp rating, construction materials, socket type, overhead vs. Whether it's an office buildout or a warehouse renovation, this calculator provides a good starting point for planning. Wieland is your experienced and reliable partner for efficient, pluggable and decentralized electrical installation.
