Intelligent Full-Spectrum Direct-Reading Spectrometer

Overview

The Full Spectrum Direct Reading Spectrometer (SparkCCD & Spark 8000 series) by SINOTEST is a high-performance spark optical emission spectrometry (Spark-OES) platform engineered for the rapid, simultaneous determination of multiple elements in metals and alloys. Featuring a scientific research-grade CCD detector, the spectrometer covers the. ICP-3000 Inductively Coupled Plasma Optical Emission Spectrometer is powerful simultaneous full—spectrum direct-reading spectrometer designed to trace elemental analysis in various samples with excellent analytical precision and accuracy. Echelle grating-prism cross-dispersion method eliminates movable optical components and ensures long-term stability. Automatic wavelength calibration algorithm, which is. DW-TY-9000 Full Spectrum Direct Reading Spectrometer, which adopts the international standards of design and manufacturing technology, follows the steps of international spectrum technology and applied the new all digital technology instead of PMT simulation technology.

Article Content

Full Spectrum Direct Reading Spectrometer | SINOTEST

The Full Spectrum Direct Reading Spectrometer (SparkCCD & Spark 8000 series) by SINOTEST is a high-performance spark optical emission spectrometry (Spark-OES) platform engineered for the

Full Spectrum Direct Reading Spectrometer Supplier

What is Full Spectrum Direct Reading Spectrometer? Full Spectrum Direct Reading Spectrometer / Optical Emission Spectrometer □OES□ is a type of analytical

Full-spectrum Direct Reading inductively Coupled Plasma Optical ...

Featuring a scientific research-grade CCD detector, the spectrometer covers the full 160-900 nm wavelength range, allowing for simultaneous detection of all elements with a single exposure.

ICP-3000 Inductively Coupled Plasma Optical Emission

ICP-3000 Inductively Coupled Plasma Optical Emission Spectrometer is powerful simultaneous full—spectrum direct-reading spectrometer designed to trace

Full Spectrum Direct-reading Inductively Coupled Plasma Emission ...

Automatic wavelength calibration algorithm, which is intelligent and precise, facilitates measurement without a need for additional peak correction, saving a large amount of standard solution and test

Full Spectrum Direct Reading Spectrometer (DW-TY-9000)

DW-TY-9000 Full Spectrum Direct Reading Spectrometer, which adopts the international standards of design and manufacturing technology,

Full Spectrum Direct Reading Spectrometer

l Multi-language CCD full-spectrum graphical analysis software based on Windows system, convenient and practical. l Fully managed to control the entire

Full-spectrum Direct Reading inductively Coupled Plasma Optical

The ICP-OES MICS series full spectrum direct reading inductively coupled plasma emission spectrometer is a new generation of ICP-OES products.

ICP-6810 (Full-spectrum direct-reading)

ICP-6810 is a full-spectrum direct-reading inductively coupled plasma emission spectrometer for the determination of trace and trace elements in different

© 2026 EXF OPTICAL NETWORKS - All rights reserved

ICP-OES MICS Full Spectrum Direct Reading

The full spectrum direct reading inductively coupled plasma emission spectrometer utilizes a reliable integrated solid-state RF power supply, a stable constant

Full spectrum direct reading connected coupled

ICP-6810-A2 is a full-spectrum direct-reading inductively coupled plasma emission spectrometer used to determine the content of trace and trace elements in

Full Spectrum Direct Reading Spectrometer-Direct

TR-TC-9000 Full Direct Reading Spectrometer, which adopts the international standards of design and manufacturing technology, follows the steps of

ICP-6810 full spectrum direct reading inductively

ICP-6810 full spectrum direct reading inductively coupled plasma optical emission spectrometer Introduction ICP-6810 is a full-spectrum direct-reading inductively

Laboratory Equipment □ Scientific Instruments Manufacturer

DW-TY-9000 Full Spectrum Direct Reading Spectrometer, which adopts the international standards of design and manufacturing technology, follows the steps of international spectrum technology and ap-

ICP900T Full Spectrum Direct Reading Inductively Coupled Plasma ...

ICP900T Full Spectrum Direct Reading Inductively Coupled Plasma Emission Spectrometer The full spectrum direct reading inductively coupled plasma emission spectrometer is used to determine the

Full-spectrum Direct Reading inductively Coupled Plasma Optical ...

The ICP-OES MICS Series is a high-performance spectrometer ideal for elemental analysis across industries like environmental monitoring and food safety. It offers full spectral coverage (160–900 nm)

Inductively Coupled Plasma Optical Emission

DW-ICP-OES3000 Inductively Coupled Plasma Optical Emission Spectrometer DW-ICP-OES3000 inductively coupled plasma emission spectrometer is a powerful

ICP-6810 Full spectrum direct reading inductively spectrometer

ICP-6810 is a full-spectrum direct reading inductively coupled plasma emission spectrometer used to determine the content of trace and trace elements in different substances (soluble in nitric acid,
