Manages the entire distribution cabinets through research and development of data acquisition modules, intelligent touch-screen display of the electrical parameters, such as main power, percentage load parameters, its actual current service road, branch switching. Manages the entire distribution cabinets through research and development of data acquisition modules, intelligent touch-screen display of the electrical parameters, such as main power, percentage load parameters, its actual current service road, branch switching. MICO is the intelligent power distribution module from Murrelektronik for 12VDC, 24VDC or 48VDC. It monitors currents, indicates when approaching the maximum load and makes targeted shut downs during over-stress or short circuits. This makes sure systems run at maximum capacity. Complex power. Are modular or configurable cooling options available?

What CDU (coolant distribution unit) options does nVent provide?

Do you support high-density deployments above 30kW per rack?

Can air and liquid cooling coexist in the same data center?

How do your liquid cooling products support ESG and. Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. Designed to simplify deployment and take stress out of power distribution, this intelligent PDU helps reclaim valuable hours. Whether that means speeding up Saturday installs or focusing on. Standard and high-density 0U models available in metered and managed configurations. ArcTiv 1U iPDU's provide reliable and secure rack power in a compact, modular design Full line of sensors, access control and alarms for on-site and remote alerts.

ArcTiv Intelligent Power Distribution Units (iPDU''s)

ArcTiv iPDU''s reliably power your IT racks and cabinets with high density modular designs in both metered and managed configurations.

What is an Intelligent PDU?

An intelligent PDU, also known as smart PDU, goes beyond distributing power to IT equipment within the data center. It is capable of monitoring, managing, and controlling power consumption to multiple

Intelligent precision power distribution system

PLS-DP intelligent power distribution system''s advantages lies in its distribution system condition monitoring accuracy, comprehensiveness, professionalism of management functions.

RackPower | nVent SCHROFF

RackPower Intelligent Power Distribution Units are configured to order a product that addresses controlling power on cabinets as well as open frame racks and wall-mount enclosures.
