Kazakhstan parallel drop fiber optic cable

Overview

First proposed in 2019, the project involves the construction of two parallel fiber-optic lines, spanning approximately 380 to 400 kilometers, to connect the digital infrastructures of Kazakhstan and Azerbaijan. Kazakhstan and Azerbaijan have entered the active implementation phase of the long-anticipated submarine fiber-optic cable (SFOC) project across the Caspian Sea. According to Bagdat Mussin, CEO of Kazakhtelecom JSC, the underwater cable system is scheduled for completion and launch by the end of. Kazakhstan's Deputy Prime Minister and Minister of Artificial Intelligence and Digital Development, Zhaslan Madiyev: The project is part of the larger "Digital Silk Way" initiative, which aims to create a digital telecommunications corridor between Europe and Asia. The main underwater cable route. In the Kazakhstan fiber optics cable market, the import trend experienced a decline from 2023 to 2024 with a growth rate of -4. However, the compound annual growth rate (CAGR) for the period 2020-2024 stood at a healthy 11. By end of 2020 mobile broadband covered 5,332 settlements, serving 99.
