Large amounts of optical cable price data

Overview

CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets. These cables consist of glass or plastic fibers that transmit data through pulses of light, offering significantly higher bandwidth and faster transmission. See why G. 652D optical fiber prices are rising in 2025–2026, how FTTH cable budgets are affected, and what procurement teams in Europe, Latin America, Africa and the Middle East can do to manage risk. Strong demand from data centers is now the primary driver, replacing the previously dominant. This growth represents a CAGR of 7. 21% during the forecast period from 2026 to 2035.
