Libyan MNS Distribution Box Manufacturer

Overview

Libya MNS Low Voltage Withdrawable SwitchgearMNS is a low-voltage switchgear assembled in the factory using standard modules. It is suitable for AC 50/60Hz.

Key Takeaways

Key Libyan manufacturers of MNS distribution boxes include Al Hussain for Electrical Industry and Services and Altazamon Company, both offering low-voltage switchgear and distribution panels compliant with international standards.

Al Hussain for Electrical Industry and Services

Established in 1993, Al Hussain is one of Libya's largest companies specializing in the manufacturing and assembly of electrical distribution boards, including low-voltage panels and MNS-type switchgear. Key capabilities include: Manufacturing of low-voltage distribution panels and enclosures using modern CNC machines and digital tools. Assembly of type-tested panels (TTA panels, Prisma Plus) according to IEC60439-1 standards.

Supply of L

V circuit breakers and devices from Schneider Electric. Production of Ring Main Units (RMU), package substations (11/0. 4 kV), and silent generators (20–1500 KVA).

Compliance with IEC standards, GECOL specifications, and Schneider Electric specifications.

Altazamon Company

Founded in 1998, Altazamon is a Libyan limited liability company providing engineering, assembly, and supply of electrical panels and distribution equipment. Highlights include: Long-standing collaboration with the General Electricity Company of Libya (GECOL). Custom electrical solutions for industrial, governmental, and commercial clients.

Expertise in localizing high-standard electrical manufacturing in cooperation with international partners.

Production of MN

S low-voltage switchgear and distribution boards tailored to client specifications.

MN

S Switchgear OverviewMNS distribution boxes are modular, low-voltage switchgear suitable for AC 50/60Hz systems with rated voltages below 660V and currents up to 6300A. Features include: Modular design with high-quality steel enclosures and flexible compartment configurations. Compliance with IEC60439, VDE0660, BS EN60439, and NEMA standards.

High protection ratings (IP31, IP40, IP54) and reliable interlocking mechanisms. Applications across power generation, construction, petrochemical, mining, and industrial sectors.

Summary

For sourcing MNS distribution boxes in Libya, Al Hussain and Altazamon are the primary local manufacturers with proven experience, international standard compliance, and the ability to provide customized solutions for industrial and utility-scale projects. These companies also offer associated electrical equipment such as RMUs, package substations, and LV devices, making them comprehensive suppliers for power distribution needs.
