P Green Engineering – Offers perforated and ladder-type trays in mild steel, pre-galvanized steel, and FRP, with full accessory support and customization in thickness, width, and length. Kaptech Solutions – Manufactures premium galvanized, HDG, and powder-coated cable trays, channels, and brackets with ISO-certified processes and bespoke designs for HVAC, electrical, solar, and fire protection systems.

Product Types and Features

Ladder Type Cable Trays – Ideal for heavy-duty power cables, providing uniform rung spacing and maximum support. Perforated Cable Trays – Allow airflow to prevent overheating, suitable for large volumes of power cables. Materials – Mild steel, pre-galvanized steel, and FRP for corrosion resistance and durability.

Accessories – Bends, tees, elbows, reducers, couplers, clamps, and fasteners for complete cable management solutions. Customization – Options in tray width (50–1200mm), thickness (1. 6–3mm), side rail height, and length (2500–6000mm) to meet project-specific requirements.

Key Considerations

Certifications – Many manufacturers comply with IS, IEC, and UL standards. Applications – Suitable for industrial plants, data centers, refineries, substations, tunnels, commercial buildings, and rooftop solar installations. Ordering – Minimum order quantities vary; payment methods include cash, bank transfer, credit card, and online systems.

Durability – Galvanized trays provide corrosion resistance and long service life, supporting heavy cable loads in industrial environments. For sourcing, buyers can directly contact these manufacturers to get the latest prices, bulk order deals, and delivery options, ensuring reliable and high-quality cable management solutions across India.
