Uninterruptible power supply (UPS) for medical applications | Eaton

We offer various UPS systems for medical use, with functions that meet the particular needs of these often demanding applications. See below for a selection of UPS systems that we recommend for use

MediPower™ UPS Medical Power System

MediPower™ seamlessly transitions from AC outlet to battery, ensuring uninterrupted power for medical devices during power disturbances or outages.

Healthcare UPS Backup Power | Mitsubishi Electric

Discover the Mitsubishi Electric Uninterruptible Power Supplies that hospitals and healthcare facilities choose to avoid devastating downtime and ensure reliable power distribution.

Medical Grade UPS Systems | Medical Grade Power

Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer.

Medical Isolated Power Supply (IPS)

MAK Plus Power Systems, isolated medical IPS power supply is true online double conversion topology as well as three level UPS Systems, manufactured with the

Medical Grade UPS (Uninterruptible Power Supply ...

The demands of an uninterruptible power supply (UPS) for electro-medical use are considerable and the units we have for this purpose are all designed to work in conjunction with your isolated power supply

Battery Backup Emergency Power Systems

Our standalone medical power systems offer robust and reliable power and battery backup solutions for healthcare facilities. Engineered with cutting-edge

Medical UPS, Medical uninterruptible power supply

On-line UPS are therefore particularly suitable for sensitive equipment that needs to be supplied with power at all times (such as servers in data centers, industrial installations or medical equipment).

Medical Grade UL60601-1 Power Conditioner and UPS | Online Power

© 2026 EXF OPTICAL NETWORKS - All rights reserved

Online Power''s provides medical grade power conditioners and ups power systems that allow critical life saving medical equipment running smoothly and running even during an unexpected emergency.

Medical Power Distribution Units (PDU)

In medical settings, PDUs ensure a dependable power supply to essential equipment, thereby improving patient safety and care. Explore Astrodyne TDI

UPS Power Conditioner for Medical Applications

Ideal for hospitals and healthcare, our UPS operate as power conditions and maintain an even, continuous power supply to your medical equipment. Learn more.

Powering Healthcare Systems | Backup Power UPS | Eaton

Uninterruptible power supplies (UPS)s not only provide emergency power during outages, they are essential to shield medical devices against a wide range of power anomalies. Take it a step further

Reliable UPS Systems for Medical Life-Safety

With our reliable UPS systems, you can rest assured that your life-saving devices will stay powered up and functioning during power outages, surges, and voltage

Hospital Uninterruptible Power Systems (UPS) Systems

Reliable power is a necessity for hospitals and other healthcare environments. These environments require a continuous power supply to keep lifesaving equipment and communication systems

Medical Grade Power Supplies | APC Technology Group

Medical grade power supplies from Astrodyne. Meet the stringent safety standards that apply to the performance and safety of medical electrical equipment.

Medical UPS Systems: Ensuring Safe, Reliable Power

Ensure uninterrupted power for critical healthcare equipment with medical UPS systems. Discover key safety standards like VDE 0100 and

Backup power, UPS, surge & IT power distribution

Backup power, UPS, surge & IT power distribution To help you maintain business continuity and prevent downtime, Eaton offers a comprehensive portfolio of backup power and distribution equipment,

UPS for Medical Equipment
