MPO optical cable aviation connector

Overview

The system allows for a standard MPO patch cable to be installed in a MIL-DTL-38999 Series III type connector which protects the assembly from shock, vibration, dust, and fluids. No cabling operation or termination is required for field installation of the MPO patch cord into the. The MPO Field upgrades a standard MPO to a ruggedized connection. Data. An MTP®/MPO cable is a high-density fiber optic cable that uses multi-fiber connector to transmit multiple optical signals through a single interface. Imagine managing thousands of single-core jumpers in one row, it quickly turns into a spaghetti nightmare. Enter the MPO (Multi-Fiber Push-On) connector. Our fiber optic solutions provide fast data rate speeds combined with low-loss signal integrity, high-density configurations.
