New Anti-corrosion Cable Trays

Overview

This white paper compares the High Resistance (HR) and Hot-Dip Galvanising (HDG) solutions and highlights the new High Resistance range, ZnAl wiremesh, ZnMg metal cable trays and accessories and ZnNi screws and bolts. In the construction and design of electrical systems, anti-corrosive cable trays selection plays a crucial role in ensuring both the durability and safety of the entire system. There is a solution for each type of environment. Corrosion can weaken cable trays, leading to failures that disrupt operations. Corrosion-resistant cable trays are essential components in modern electrical infrastructure, especially in environments prone to moisture, chemicals, or extreme temperatures. These trays not only organize and protect cables but also ensure long-term reliability. Below, we delve into their key. Our Cable Tray provide reliable cable support in the most corrosive applications. Both Polyester & Vinyl ester resin systems are available.
