Nordic ladder cable tray manufacturers

Overview

Our Range of Cable Trays and Accessories | Nordic Wire TrayOur team of experts can help you choose the right cable ladder to suit your application and inst.

Key Takeaways

Leading Nordic manufacturers of cable ladders and trays include Meka, Nordic Wire Tray (NWT), and Oglaend System, offering high-quality, customizable cable management solutions.

Meka Cable Management Solutions

Meka is a prominent Nordic manufacturer specializing in galvanized steel and acid-proof steel cable ladders, cable trays, wire mesh trays, and aluminum-frame systems. Their KS80 cable ladders are designed for high load capacities and wide spans, with tube side profiles that protect against dust, dirt, and humidity, making them suitable for industries like pulp and paper, wood, food, and outdoor installations. Meka has over 40 years of experience in cable support systems, emphasizing durability and industrial-grade performance (Meka).

Nordic Wire Tray (NWT)Nordic Wire Tray, operating under the X-Tray brand, provides a flexible and customizable cable laying system. Their products include wire trays, data racks, brackets, and accessories designed for fast installation and high load capacity.

NW

T emphasizes premium quality, compliance with IEC 61537 standards, and adaptability to unique project requirements.

Their X-

Tray system features the longest bracket distance on the market, reducing installation time and costs.

NW

T also offers custom cutting and bending of cable ladders to fit specific project needs, ensuring a tailored solution for each installation (Nordic Wire Tray).

Oglaend System

Oglaend System A

S, based in Norway, is a well-established manufacturer of multidiscipline support systems, cable ladders, and cable trays. Founded in 1977, their Norwegian plant produces steel-based cable management solutions for sectors such as oil & gas, shipbuilding, infrastructure, wind energy, and marine farming. Oglaend System focuses on robust, industrial-grade products suitable for demanding environments, with a strong local sales and support network (Oglaend System).

Key Features Across Nordic Manufacturers

Material Options: Galvanized steel, stainless steel, aluminum, and wire mesh. Customization: Adjustable ladder lengths, bends, and bracket spacing. Durability: Designed for harsh industrial environments, including outdoor and high-humidity conditions.

Ease of Installation: Systems are engineered for fast assembly with minimal tools. Compliance: Many products meet international standards such as IEC 61537. These manufacturers provide original Nordic cable tray and ladder solutions suitable for industrial, commercial, and infrastructure projects, offering both standard and fully customized systems to meet specific project requirements.
