Oman s official distribution boxes are supplied

Overview

Oman s official distribution boxes are suppliedDJL Logistics LLC is a specialized logistics provider in Oman, offering a range of services including wareho.

Key Takeaways

Mazoon Electricity Company (MZEC) is the authorized supplier and distributor of electricity distribution boxes in its licensed areas across Oman.

Authorized Supplier and Coverage

Mazoon Electricity Company SAO

C (MZEC), part of the Nama Group, is officially authorized to undertake regulated electricity distribution and supply within its licensed area in Oman.

MZE

C serves a large supply area of approximately 75,000 km² in the north-east of Oman, covering four governorates: Al Dakhilyiah, North Al Sharqiyah, South Al Sharqiyah, and South Al Batinah including the Wilayat of Suwaiq. This ensures that all official distribution boxes and related infrastructure in these regions are supplied and maintained under MZEC's oversight. Distribution InfrastructureOman's logistics and distribution network supports the efficient delivery of electricity equipment.

The country benefits from modern ports such as Sohar, Salalah, and Muscat, which facilitate the import and onward distribution of electrical components. Warehousing facilities near these ports provide storage, inventory management, and value-added services such as packing and labeling, ensuring that distribution boxes reach their destinations efficiently.

Regulatory and Operational Framework

The distribution of electricity equipment in Oman is regulated under national laws and overseen by authorities such as the Ministry of Transport, Communications and Information Technology (MTCIT) and the Public Authority for Consumer Protection.

MZE

C operates under strict compliance with these regulations, ensuring that all distribution boxes meet safety, operational, and technical standards. Warehouses and storage facilities are designed to accommodate various types of electrical equipment, including temperature-sensitive and oversized components, with trained staff managing handling and inventory. Logistics and DeliveryMZEC leverages Oman's well-developed road network to distribute electricity boxes across its licensed areas.

Modern transport solutions, including GPS-equipped fleets and bonded warehouses, allow for timely and secure delivery. The integration of technology, such as warehouse management systems, ensures real-time tracking and efficient inventory control, minimizing delays and maintaining service reliability. In summary, MZEC is the official supplier and distributor of electricity distribution boxes in its licensed regions, supported by Oman's strategic logistics infrastructure, regulatory oversight, and modern warehousing and transport systems to ensure safe and efficient delivery.
