Opsens fiber optic sensor from Congo

Overview

OpSens supplies a wide range of fiber optic sensors and signal conditioners for temperature, pressure, strain and deformation measurement based on proprietary patent and patent-pending technologies. Opsens Solutions optical pressure sensor delivers reliable results in harsh environment. Shaping a new standard – An advanced FFR pressure guidewire with fiber optic sensing technology. Second generation fiber optic pressure guidewire and advanced pressure and temperature. Opsens Solutions offers key solutions in optical temperature, pressure, strain/deformation, linear displacement, force & load for oil & gas, energy, structural health monitoring, defense & aerospace, geotechnical, civil engineering, microwave chemistry, food, industrial applications and research. OpSens Solutions delivers a high-end fiber optic sensing solution to Oil & Gas producers, providing them with reliable real-time downhole pressure and temperature information about their oil wells during operation.

Article Content

Opsens fiber optic sensor company for FFR and Oil & Gas.

Fiber optic sensors manufacturer offering solutions for interventional cardiology Fractional Flow Reserve FFR, Oil and Gas and industrial applications.

Opsens Solutions temperature, pressure, strain, displacement solutions

Fiber Optic Temperature Sensors High accuracy and repeatable optical temperature sensors for your needs.

Opsens a fractional flow reserve, Oil & Gas and fiber

Since 2003, OpSens has established itself as a pioneer of innovative fiber optic sensing technology committed to quality and excellence. We deliver cost

Fiber Optic Pressure Sensors

OpSens OPP series fiber optic pressure transducers are designed to provide accurate pressure measurement in the most adverse conditions. Its small size and EMI/RFI/MRI immunity makes it the

OPP-W Fiber Optic Pressure/Temperature Sensor

The OPP-W, which is based on an optical sensing element made of monocrystalline sapphire, offers superior performances, robustness, durability, and hydrogen and

OpSens Solutions Inc. Company Catalog

Opsens Solutions, a divisions of Opsens Inc., develops, manufactures and supplies a wide range of innovative fibre optic sensing solutions and associated signal conditioners based on proprietary

Opsens Solutions| Fiber Optic Temperature Sensors

Fiber-optic temperature sensors for industrial applications involving harsh environments such as high voltage, electromagnetic interferences, microwaves, and Radio-Frequency energy

Opsens fiber optic sensing technologies

Opsens actual offer includes a complete family of fiber optic Fabry-Perot pressure sensors covering a wide range of applications such as for medical catheters, industrial high temperature pressure

Fiber Optic Temperature Monitor Market Research Report ...

© 2026 EXF OPTICAL NETWORKS - All rights reserved

OpSens, with a niche in fiber optic sensors for industrial applications, generates about $10 million annually. Its strategy emphasizes evolving product offerings to meet market demands.

Fiber optic sensors for industries

Opsens Solutions'' fiber optic for temperature, pressure, strain & displacement for industries. Opsens Solutions offers sensors and signal conditioners adapted to your needs and specific requirements.

Opsens a fractional flow reserve, Oil & Gas and fiber optic sensor

About OpSens Fiber optic sensors manufacturer offering solutions for interventional cardiology Fractional Flow Reserve FFR, Oil and Gas and industrial applications.

Fiber Optical sensors for Industrial applications

Fiber optic solutions for industrial applications: temperature, pressure, displacement, strain by Opsens Solutions. Contact us.

About Us

About Opsens Fiber optic sensors manufacturer offering solutions for Life Sciences, Medical, Oil and Gas, Power Transformer, Aerospace, Defense & OEM.

OPP-W Fiber Optic Pressure/Temperature Sensor

The OPP-W is a Fabry-Perot interferometer based, fiber optic pressure and temperature sensor constructed from highly durable and corrosion resistant sapphire material. Designed

FIBER OPTIC PRESSURE KEY FEATURES SENSOR

Opsens Solutions'' OPP-C, MEMS-based fiber-optic pressure sensor, is perfectly tailored to meet the challenges of pressure monitoring Applications in submerged and/or harsh environments.

OPP-C & OPP-CT Fiber OPTiC KEY FEATURES Pressure sensOrs SENSOR ...

Opsens Solutions'' OPP-C, MEMS-bases fiber-optic pressure sensor, is perfectly tailored to meet the challenges of pressure monitoring applications in submerged and/or harsh environments.

Opsens Solutions'' fiber optic strain and deformation sensor, probe and ...
