Optical Cable Traction Machine Factory

Overview

Find trusted optical cable puller factory suppliers with verified credentials, customization options, and competitive pricing. Cable Puller, Power Cable Optical Cables Pulling Machine^ Mainly used for various cable production lines for single machine or front and rear double traction. The whole frame is made of high-quality steel plate after bending and splicing, and the appearance is novel. Factories are adapting to shifting demand, making it essential to understand current dynamics. Customer satisfaction stands at 91. Carton, 1 pc/box / can be customized. 6mm steel stranded wire, 4*35mm2 cable. It is used for long distance transmission of large section cable, especially suitable for long distance laying. Optical cable traction machines are widely used in optical fiber communication, power, and municipal engineering for cable laying and construction.
