Outdoor monitoring power distribution box waterproof box

Overview

A waterproof distribution box protects terminals, splices, and miniature modules from water, dust, and UV exposure—critical for outdoor reliability and safety. Our AT Series and HT Series are engineered for long-term performance under IP65 waterproof distribution box requirements. Outdoor power distribution boxes are rapidly becoming essential for industries and businesses expanding operations beyond traditional indoor settings. Built with durable materials, CE & ROHS certified. These enclosures protect internal circuitry from environmental hazards while providing organized power access for residential, commercial. Weatherproof outdoor distribution boxes ensure reliable power distribution in challenging environments by protecting against moisture, dust, and temperature extremes.
