Parameters of 12-core optical fiber splice box

Overview

The FDB-12E Optical Distribution Box is ideal for FTTH networks, supporting 8/16 fusion splices, 12 SC/LC connectors, and 1:8 or 1:16 PLC splitters. With IP55 protection, it's perfect for indoor/outdoor use and offers flexible wall or pole mounting options. dy and base are sealed with hoops and rubber. The closure casing is made of high-quality engineering plastics, and has good explosion-proof performance against acid and alkali salt, anti-aging, as well as a smooth appearance and reliable mechanical structure. The mechanical structure is reliable. The 12 port fiber splice box is a compact wall-mount enclosure designed for splice-only distribution in FTTH and P2P networks. How can I pay for my order?

We accespt T/T. Grandway's fiber optic closure provides a high density wall mounted or pole mounted solution for next generation networks, which aims to provide and manage fiber splitters in a limited space.
