# Price of cable tray fixing clips

## Overview

Choose from our selection of cable tray clips in a wide range of styles and sizes. Same and Next Day Delivery.

## Key Takeaways

Cable tray fixing clips typically range from $0. 10 to $5 per clip, depending on material, size, and load capacity.

## Overview

Cable tray fixing clips are essential for securing and organizing electrical cables in residential, commercial, and industrial installations. They come in various materials such as nylon, PVC, stainless steel, galvanized steel, or aluminum, and can be screw-fixed, nail-fixed, or coated with plastic/rubber for electrical safety. The choice of material and fixing method significantly affects the price.

## Price Range

Plastic clips (nylon or PVC): $0. 10–$0. 50 per clip.

These are lightweight, corrosion-resistant, and suitable for indoor or low-load applications. Galvanized or stainless steel clips: $0. 50–$2 per clip.

These provide higher strength, durability, and are suitable for outdoor or industrial environments. Heavy-duty or insulated metal clips: $2–$5 per clip. Designed for high-vibration areas or critical installations requiring maximum stability and electrical safety.

### Factors Affecting Cost

Material: Metal clips are more expensive than plastic due to strength and corrosion resistance. Size and load capacity: Larger clips or those rated for heavier cable bundles cost more. Fixing method: Screw-fixed or insulated clips are pricier than simple nail-fixed clips.

Quantity and supplier: Bulk purchases from suppliers like RS, McMaster-Carr, or Alibaba can reduce per-unit cost.

### Practical Tip

For industrial or outdoor installations, UV-stabilized plastic or galvanized metal clips are recommended to prevent premature degradation. For high-vibration areas, screw-fix or insulated metal clips ensure long-term reliability. By considering these factors, you can select the appropriate clip type while estimating a realistic budget for your cable tray installation.
