Price of China Unicom Fiber Optic Pigtail Connector Box

Overview

Find many great new & used options and get the best deals for Fiber Optic Terminal Box 24 core LC with adapter pigtail 12 Ports Patch Panel at the best online prices at eBay!

Key Takeaways

The price of China Unicom fiber optic pigtail connector boxes typically ranges from $10 to $50 per unit, depending on port count, connector type, and supplier.

Overview of Pricing

Fiber optic pigtail connector boxes, also known as fiber distribution or termination boxes, are used to connect and manage fiber optic cables in networks. Prices vary based on port capacity, material quality, and connector type (SC, LC, ST, FC) as well as whether the box is wall-mounted or rack-mounted. For example, a 12-port ST singlemode optical fiber terminal box from a Chinese manufacturer can be purchased at factory prices, often in the $20–$40 range per unit for wholesale orders.

Smaller 2-core boxes with SC/UPC duplex adapters and pigtails may cost around $10–$15 per unit.

Factors Affecting Price

Port Count: Higher port counts (e.g., 12, 24, or 48 ports) increase the price due to more connectors and internal components. Connector Type: SC, LC, ST, and FC connectors have different manufacturing costs; LC connectors are often slightly more expensive due to compact design. Material and Build: Metal or high-quality cold-rolled steel boxes with electrostatic powder coating are more durable and costlier than plastic variants.

Supplier and Shipping: Prices differ between domestic Chinese suppliers and international distributors. Wholesale factory pricing is generally lower, especially when ordering in bulk.

Purchasing Options

Alibaba and Made-in-China: Offer factory-direct pricing with options for customization and bulk orders.

Ali

Express: Provides smaller quantities with worldwide shipping, suitable for individual or small-scale purchases. Specialized Suppliers: Companies like UnitekFiber provide a range of pigtail types and connector configurations, including single-mode and multi-mode options.

Recommendation

For procurement, it is advisable to request quotes from multiple suppliers to compare prices, shipping costs, and customization options. Bulk orders from Chinese manufacturers typically offer the best cost efficiency, while smaller orders from platforms like AliExpress are convenient for testing or small deployments. In summary, expect to pay between $10 and $50 per fiber optic pigtail connector box, with the final price influenced by port count, connector type, and supplier choice.
