Price of Combined Cable Tray Supports

Overview

Tray Supports. The Largest Variety Shop multiple tray stands of all sizes and brands at the best price. With a wide range of options. Cable Tray Supports |.

Key Takeaways

Combined cable tray supports typically range from $10 to $150 per unit depending on material, size, and load capacity.

Overview

Combined cable tray supports are brackets or hangers used to secure cable trays at various points of installation, ensuring proper routing and support for electrical and data cables. They are essential in commercial, industrial, and residential wiring systems to prevent sagging, maintain organization, and comply with safety standards.

Price Factors

Material: Supports can be made from galvanized steel, stainless steel, or plastic, with stainless steel generally being the most expensive due to corrosion resistance. Type and Design: Options include wall-mounted brackets, ceiling hangers, or adjustable supports. Heavy-duty supports for ladder trays cost more than light-duty supports for wire mesh trays.

Size and Load Capacity: Larger supports designed for heavier cable loads or longer spans are priced higher. Standard small supports for office or home use may start around $10–$20, while industrial-grade supports can reach $100–$150 or more. Brand and Supplier: Prices vary by manufacturer.

Brands like Legrand, Schneider Electric, and Phoenix Contact are typically higher-end, while generic or Amazon-listed supports may be more affordable. Purchasing OptionsMcMaster-Carr offers a wide range of corrosion-resistant cable trays and supports with same-day delivery.

R

S Components provides high-quality cable tray accessories, including hangers and brackets suitable for heavy-duty industrial applications.

Cable

Organizer and Amazon offer both standard and adjustable supports for office, studio, or home setups. Ekabel24 supplies DIN EN 61537-compliant systems for professional installations, including ladder and solid-bottom trays with compatible supports.

Recommendation

For budgeting purposes, expect light-duty supports for small cable trays to cost $10–$30 each, medium-duty supports $30–$80, and heavy-duty or industrial supports $80–$150+. Always consider the material, load rating, and installation environment when selecting supports to ensure safety and compliance.
