Price of fiber optic cable hanging clips

Overview

Neatly organize and route cables by installing these clips every 12 - 18 inches for a tight installation on walls, baseboards, ceilings, indoor or outdoor.

Key Takeaways

Fiber optic cable hanging clips range from around $5 for small adhesive packs to $50 or more for bulk or specialized steel clips. Price OverviewSelf-Adhesive Clips (Pack of 30): On Amazon, Elfcam self-adhesive clips suitable for fiber optic cables with diameters from 0. 5 mm to 6 mm are priced around $5–$10 per pack.

These clips are easy to install on walls, glass, metal, or wood and are ideal for home or office cable management.

Nail-

In or Hammer-On Clips (Bulk 100 pcs): Fiber Savvy offers heavy-duty clips made of spring steel or hard-wearing materials, including right-angle clips with powder-actuated nails or hammer-on beam flange clips. These are priced around $40–$50 per 100 pieces, suitable for industrial or data center installations. Stainless Steel Cable Hangers (Bulk/Wholesale): Alibaba lists premium stainless steel fiber optic cable hangers for bulk orders.

Prices vary depending on the minimum order quantity (MOQ) and specifications, but bulk pricing can be significantly lower per unit, often under $1 per clip when purchased in large quantities. Specialized Connector Clips: Mouser Electronics provides clip accessories for fiber optic connectors, with prices depending on the type and quantity, generally ranging from $1 to $5 per piece for small orders.

Factors Affecting Price

Material: Plastic adhesive clips are cheaper, while stainless steel or spring steel clips are more expensive but more durable. Quantity: Bulk purchases reduce the per-unit cost significantly. Installation Type: Adhesive clips are cheaper and easier to install, whereas nail-in or hammer-on clips are more robust for industrial use.

Cable Diameter Compatibility: Clips designed for multiple cable sizes may cost slightly more due to versatility.

Recommendations

For home or office use, self-adhesive clips (around $5–$10 per pack) are sufficient. For data centers or telecom installations, consider bulk steel clips (around $40–$50 per 100 pcs) for durability and secure mounting. For large-scale projects, sourcing from Alibaba or similar wholesale suppliers can reduce costs per unit.

By considering the installation environment, cable type, and quantity needed, you can select the most cost-effective fiber optic cable hanging clip for your project.
